ICELAND Ice Skating Rink Fire

Sacramento Fire Department Press Release

5 Alarm Fire Destroys Sacramento Landmark

Sacramento} a 5 Alarm Fire destroyed a Sacramento Landmark early this morning. At 3:30 A.M. this morning the Sacramento Fire Department responded to a report of a vehicle fire endangering a building on Del Paso Blvd. Sacramento Firefighters arrived in about 3 1/2 minutes and found heavy fire to the rear of the Iceland Ice Rink at 1430 Del Paso Blvd.

Firefighters initially went inside the building and attempted an Offensive Attack, but quickly backed out when they determined the large volume of fire already burning overhead and the truss roof overhead which is a danger to collapse. The fire attack went to a Defensive one.

The two adjacent buildings were spared due to the quick thinking and hard work of Firefighters who

were able to deploy fire hoses between the buildings. Four Aerial Ladders were put up and water was sprayed onto the building from above.

Sacramento Fire Investigators are on scene and will conduct an investigation. There were no reported injuries. Sacramento Metro Firefighters also responded. The Iceland Ice Rink was built in 1940 and was still in business.

On Sunday morning, The Kerth Family made a statement on www.icelandmemories.com

"The fire is mostly out now....The maple hand-rail, the roof, the office, the control booth, really all the wood is no more. The metal that isn't a melted puddle is twisted.

Our grand Dame took quite a shot today.

And yet, the "Iceland" mast is still up. The walls seem sound, the Zamboni could still do the ice and, what really matters, the generations of skaters have grown to love Iceland are safe and sound, ready to roll up their sleeves.

Staggering, yes, but the old Gal has not gone down for the count. She never will.

I'm not sure how, I know it will take all hands to be ready, but join us this November 4th for Iceland's 70th Anniversary.

Bring your skates! The Kerth Family PS. Please join our email list by emailing Rob@IcelandMemories.com. If you can, please also send pictures for us to add to the site!"

Tune-Ups for your bike at Uptown Bike

A bike tune-up is a complete inspection, adjustment, and lubrication of your bicycle. Here at Uptown Bike, we adjust the headset, bottom bracket, axle cones and check all nuts and bolts during a tune-up. We will also lube your bike as needed. During a tune-up, we perform all repairs necessary to put your bike in to the best shape I can be for safe and reliable operation. Parts and installation labor are not included. We recommend tune-ups once a year at a minimum for all bikes.

THE STORY: Shakespeare's spell-binding play tells the tale of Richard, Duke of Gloucester, one of theatre's most memorable villains, as he gleefully murders his way to the top. Richard is a man with an eye to the crown and a heart of flint who is bent on seizing power, no matter the cost.

Big Idea Theatre's company is elated about our hit third season. We are committed to bringing high quality entertainment to the Sacramento area, and to making the theatre-going experience fun, affordable and accessible for all. Please help us get the word out about our continuing adventure by attending and telling everyone about *Richard III*. We look forward to seeing you in the house!
